PRODUCT REQUIREMENTS DOCUMENT

Part 3 — Driver / Delivery Partner App · FINAL

Document	FINAL merged — supersedes all previous Driver App versions
Version	v3.0 Final
Date	23 May 2026
Platforms	Android + iOS (React Native) — DARK THEME throughout
Users	Bicycle · E-bike · Scooter · Car delivery partners
Brand colours	Dark theme: #1A1A18 background · #1F7A63 green · #FFFFFF text
Developer	Appzeto — Indore, India

1. App Overview & Architecture

The DailyMealBox Driver App guides drivers through their entire shift: from going online, receiving their optimised multi-stop route, collecting boxes from vendors (with PIN verification), delivering to customers (with PIN or photo proof), and managing their earnings and cash COD balance. All delivery logic runs on the backend — driver app only displays and navigates.

Navigation — 4 Tab Bar (Dark Theme)

△ Home	 Route	 Earnings	 Profile
--------	---	--	---

Online/offline toggle, active order, bonus, cash, tips	Full day route, stop list, pickup/delivery sequence	Daily/weekly/monthly, tips, COD, payouts	Documents, vehicle, bank, shifts, fleet partner info
--	---	--	--

2. Push Notification Catalogue — Driver App (Complete)

All driver push notifications use Firebase Cloud Messaging (FCM). Driver app is dark-themed — notifications appear as bright green/amber alerts. Critical operational notifications (new order, route update, cash limit) cannot be disabled. Safety notifications (arriving soon to customer) are cross-app and handled by the backend.

Trigger Event	Notification Text	Recipient	Channel	Admin Control
Driver application approved	Welcome! You are approved. First shift: Monday. Tap to see your schedule.	Driver	FCM + Email	ACM-64 — cannot disable
Driver application rejected	Application not approved. Reason: [reason]. Tap to resubmit documents.	Driver	FCM + Email	ACM-64 — cannot disable
New order assigned to driver	New delivery! Pickup: Maria's Kitchen (Mokotow). 5 boxes. Tap to navigate.	Driver	FCM Push	Cannot disable — ops critical
Route updated (after reassignment)	3 new deliveries added to your route. Route re-optimised. Tap to see.	Driver	FCM Push	Cannot disable — ops critical
Vendor ready for pickup (collection PIN)	Maria's Kitchen is ready! 8 boxes. PIN: 7842. Tap to navigate.	Driver	FCM Push	Cannot disable — ops critical
Customer notified: arriving soon	Customer C7 notified. Driver within 500m. PIN confirmed sent to customer.	Driver (internal)	In-app	ACM-24 — auto-trigger
Cash COD limit reached	Cash limit reached: 500 PLN. Please report to admin before next delivery.	Driver	FCM Push	ACM-73 — cannot disable
Cash COD approaching limit (80%)	Cash balance: 400 PLN (80% of 500 PLN limit). Contact admin soon.	Driver	FCM Push	ACM-73 — can disable
Bonus milestone unlocked	Bonus unlocked! 150 PLN added to your earnings. 30 deliveries completed.	Driver	FCM Push	ACM-71 — can disable
Shift starting reminder (30 min)	Lunch shift starts in 30 min (11:00). Go online when ready in your zone.	Driver	FCM Push	ACM-76 — can disable
Payout processed	720 PLN sent to your bank. Cash netted: 85 PLN. Bank transfer: 635 PLN.	Driver	FCM + Email	ACM-68 — cannot disable
Driving licence expiring	Driving licence expires in 60 days. Upload renewal to avoid suspension.	Driver	FCM + Email	ACM-67 — cannot disable
Driving licence expired — suspended	Account suspended: licence expired. Upload renewal to reactivate.	Driver	FCM + Email	ACM-67 — cannot disable
Document approved by admin	Your [document name] has been approved. Account remains active.	Driver	FCM Push	ACM-64 — cannot disable
Document rejected — reupload required	Your [document] was rejected. Reason: [reason]. Please upload again.	Driver	FCM Push	ACM-64 — cannot disable
Admin force-offline (emergency)	You have been taken offline by admin. Reason: [reason]. Contact support.	Driver	FCM Push	Cannot disable — safety
Vendor quick message reply	Maria's Kitchen: "Orders ready at 11:50" — tap to view.	Driver	FCM Push	ACM-53 — can disable

Failed delivery: admin action required	Failed delivery reported for C7. Admin will arrange reattempt or refund.	Driver	In-app	Cannot disable
--	--	--------	--------	----------------

Key FCM Payloads — Driver Notifications

```
// 1. Vendor ready for pickup (CRITICAL — cannot disable):
FCM.send(driver.device_token, {
  title: "Maria's Kitchen is ready! 🟢",
  body: "8 boxes ready. Collection PIN: 7842. Tap to navigate.",
  data: {
    screen: "pickup_detail",
    vendor_id, vendor_lat, vendor_lng, vendor_address,
    batch_id, collection_pin: "7842", box_count: 8,
    event: "vendor_ready"
  },
  android: { priority: "high" }
})

// 2. New order assigned:
FCM.send(driver.device_token, {
  title: "New delivery assigned 📦",
  body: "Pickup: Maria's Kitchen (Mokotow). 5 boxes. Navigate now.",
  data: { screen: "route", event: "order_assigned" }
})

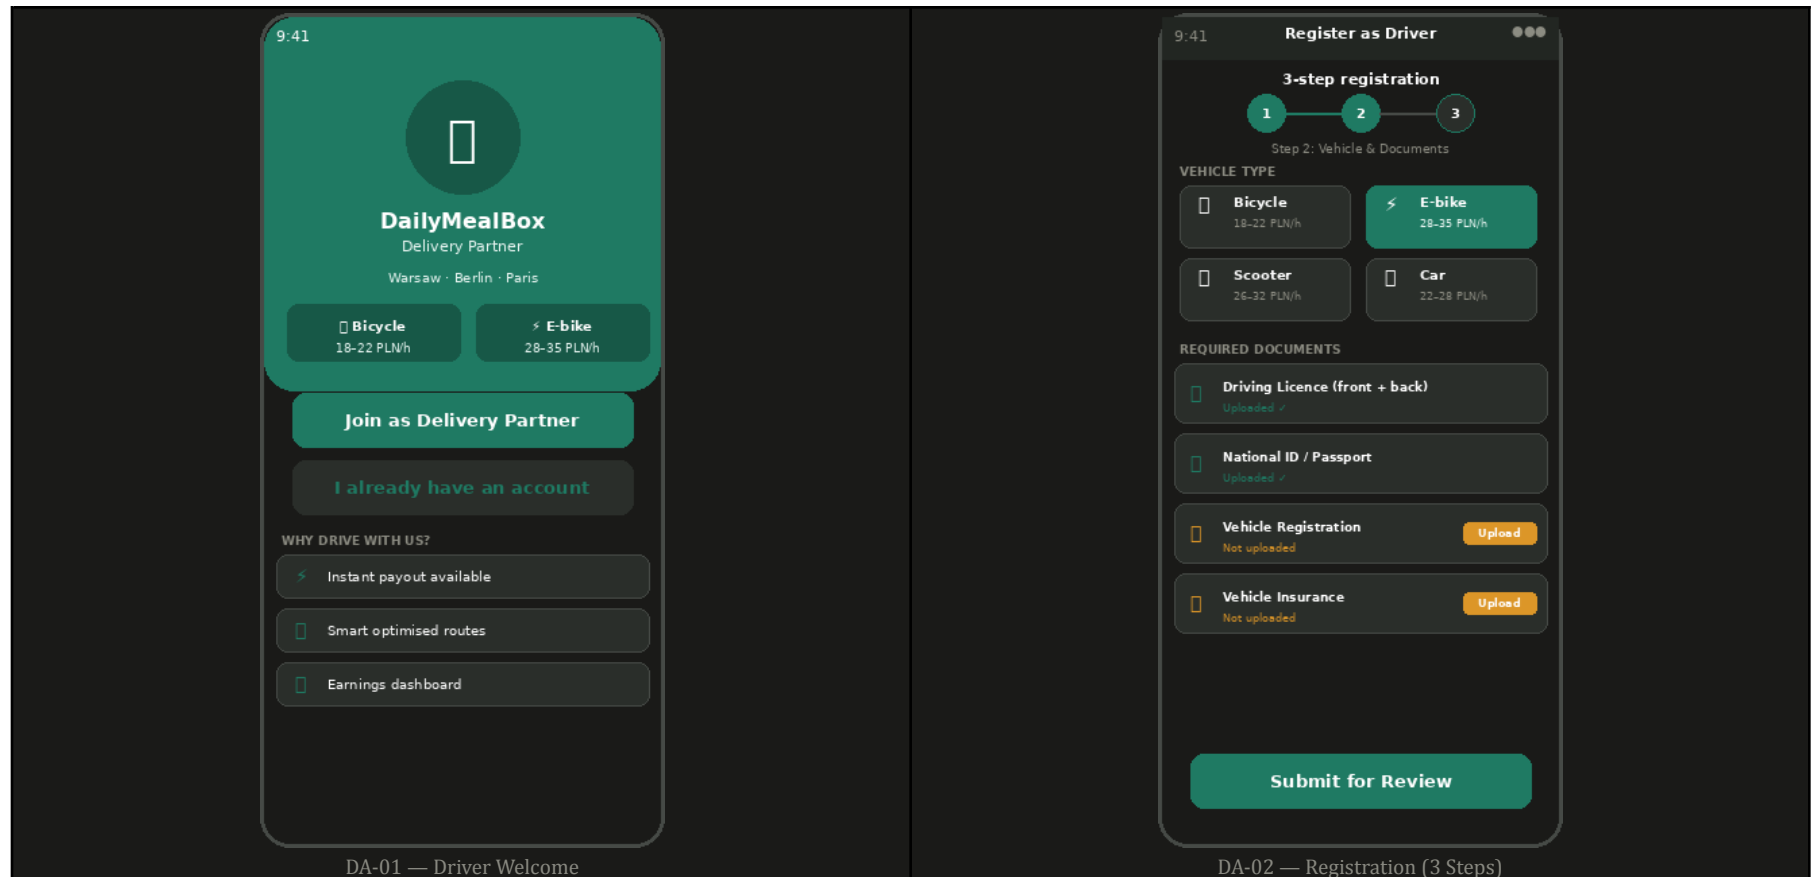

// 3. Cash limit reached (CRITICAL — cannot disable):
FCM.send(driver.device_token, {
  title: "⚠️ Cash limit reached!",
  body: "You hold 500 PLN cash. Contact admin before next COD delivery.",
  data: { screen: "earnings", event: "cash_limit_reached",
    cash_amount: driver.cash_balance }
})

// 4. Bonus unlocked:
FCM.send(driver.device_token, {
  title: "🎉 Bonus unlocked!",
  body: "150 PLN bonus added! You completed 30 deliveries this week.",
  data: { screen: "earnings", event: "bonus_unlocked", bonus_pln: 150 }
})

// 5. Shift reminder (30 min before):
// CRON: run 30 min before each city's shift start time
FCM.send(driver.device_token, {
```

```
title: "Shift starts in 30 minutes 🕒",  
body: "Lunch shift 11:00-14:00. Go online when ready in Mokotow zone.",  
data: { screen: "home", event: "shift_reminder", shift: "lunch" }  
})
```

3. Driver Onboarding & Registration

DA-01 Driver Welcome Screen

✓ INCLUDED

v1.0

Dark-themed welcome screen. Shows earnings potential per vehicle type (Warsaw research 2025-26: e-bike = highest earner at 28-35 PLN/h). Earnings calculator converts hesitant drivers before they even sign up.

Feature	Status	Admin Control	Notes / Logic
DailyMealBox Delivery Partner branding	✓ INCLUDED	—	Dark background, green accents. Shows "Warsaw · Berlin · Paris" coverage.
Earnings preview per vehicle type	✓ INCLUDED	ACM-64/65	Bicycle: 18–22 PLN/h. E-bike: 28–35 PLN/h. Scooter: 26–32 PLN/h. Admin enables vehicle types per city.
Key benefits: instant payout / routes / dashboard	✓ INCLUDED	—	3 feature highlights. Drives sign-up conversion.
Join as Driver CTA → Registration	✓ INCLUDED	—	Starts 3-step registration flow.
Admin can pause new driver registrations	⚙ ADMIN	ACM-64	Per city / per vehicle type / platform-wide. Shows "Applications paused" message.
Push: application approved/rejected	✓ INCLUDED	ACM-64	FCM + Email. Cannot disable. See notification catalogue Section 2.

DA-02	Driver Registration — 3 Steps	✓ INCLUDED	v1.0
-------	-------------------------------	------------	------

Feature	Status	Admin Control	Notes / Logic
Step 1: Personal details (name, phone, email, DOB)	✓ INCLUDED	—	DOB required for age verification (minimum 18).
Step 2: Vehicle type selection	✓ INCLUDED	ACM-65	Admin enables/disables each vehicle type per city. Disabled types greyed out.
Step 3: Document upload	✓ INCLUDED	—	Google Drive storage for all driver documents.
Driving licence (front + back) — MANDATORY	✓ INCLUDED	ACM-67	Stored on Google Drive. System checks expiry. 60-day warning push.
National ID (passport or national ID) — MANDATORY	✓ INCLUDED	—	EU gig worker compliance. Front photo required.
Vehicle registration	✓ INCLUDED	—	For scooter and car drivers only.
Bank account IBAN for earnings payouts	✓ INCLUDED	—	Polish/EU IBAN. Validated on input.
Fleet Partner assignment (v3.0)	✓ INCLUDED	—	Driver profile shows which fleet partner company they belong to. Set by admin on approval.
Admin approval required before going live	✓ INCLUDED	ACM-64	City Manager reviews. Push + email on decision.
Push: document approved / rejected	✓ INCLUDED	ACM-64	FCM + Email. Cannot disable.

4. Driver Home — Online / Offline Hub

DA-03 — Driver Home (Online State)

DA-03	Driver Home Screen	✓ INCLUDED	v1.0
-------	--------------------	------------	------

The driver command centre. Large online/offline toggle is the most important UI element. All key information visible without scrolling. Dark theme reduces screen glare outdoors.

Feature	Status	Admin Control	Notes / Logic
Large online/offline toggle (full-width, impossible to miss)	✓ INCLUDED	ACM-76	Green when online, dark when offline. Shift enforcement built in.
Today stats: deliveries / earned / rating	✓ INCLUDED	—	Real-time. Updates after each confirmed delivery.
Active order card (vendor → navigate)	✓ INCLUDED	—	Shows vendor name, zone, box count. One-tap navigate.
Weekly bonus progress bar (amber)	✓ INCLUDED	ACM-71	Only shown if admin has enabled bonus programme.
Cash balance (COD held) — amber card	✓ INCLUDED	ACM-73	Colour turns red when approaching cash limit (>80%).
Tips earned today (separate from earnings)	✓ INCLUDED	ACM-50	Only shown if admin enabled tips. "100% goes to you."
Shift time display	✓ INCLUDED	ACM-76	Shows current shift: "Lunch shift 11:00–14:00."
Admin-disabled feature notices	✓ INCLUDED	All ACM	If COD disabled: cash section hidden. If tips off: tips section hidden.
Push: shift starting reminder (30 min before)	✓ INCLUDED	ACM-76	FCM push 30 min before shift. Can disable. See notification catalogue.

Online/Offline Toggle — Shift Enforcement

```
// Driver taps Go Online:
POST /api/drivers/{id}/online

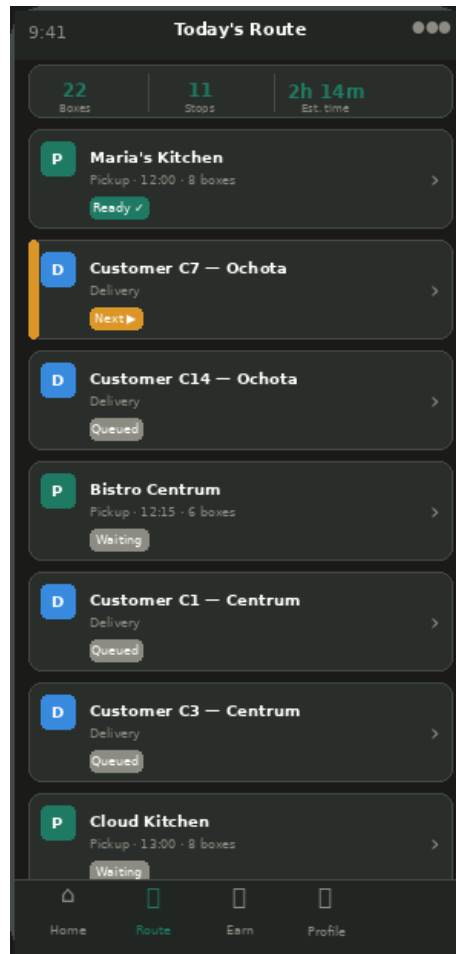

Backend validation:
1. Check shift is active:
  const shiftStart = remoteConfig.get("lunch_shift_start_warsaw") // "11:00"
  const shiftEnd   = remoteConfig.get("lunch_shift_end_warsaw")   // "14:00"
  if (now < shiftStart || now > shiftEnd)
    return error("Your lunch shift starts at " + shiftStart)

2. Check driver active + documents not expired:
  if (driver.status !== "active")
    return error({ code: "account_suspended" })

3. Set online + start GPS streaming:
  driver.is_online = true
  redis.set("driver:" + driver.id + ":online", 1, "EX", 18000) // 5h max

// GPS streaming (5-second interval when online):
socket.emit("location_update", {
  driver_id, lat, lng, timestamp: Date.now()
})
// Backend → Redis → Customer app + Admin live map
```

5. Route Display — Multi-Stop Optimised

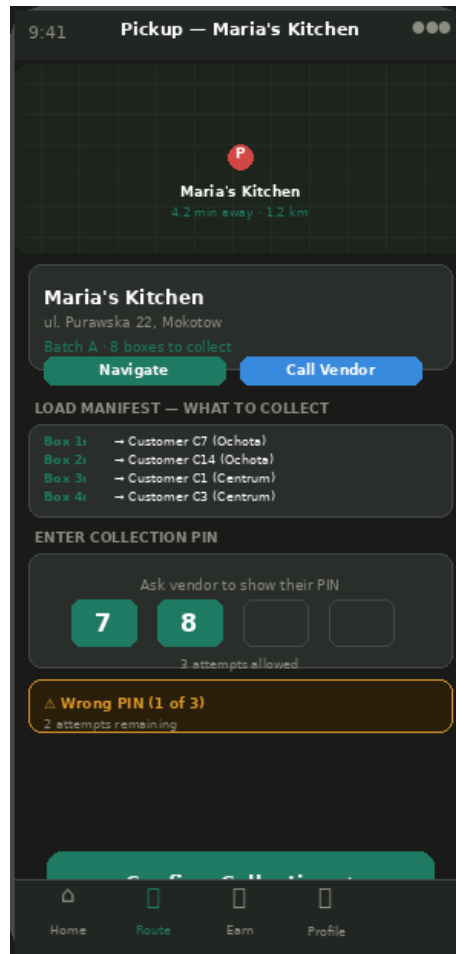

DA-04 — Today's Route (Full Stop List)

VRPTW algorithm runs on backend at 10:00am daily. Driver sees an ordered stop list — pickups (green P) and deliveries (blue D) interleaved. All routing logic on backend. Driver app only displays and navigates.

Feature	Status	Admin Control	Notes / Logic
Route summary: total boxes / stops / estimated time	✓ INCLUDED	—	Header bar. Calculated by backend using Google Maps traffic data.
Ordered stop list (pickups + deliveries interleaved)	✓ INCLUDED	ACM-77	Colour-coded: P=green, D=blue. Next stop highlighted with NEXT badge.
NEXT badge on current stop + Navigate button	✓ INCLUDED	—	One tap → opens Google Maps with vendor/customer address.
Pickup stop: vendor name, address, time window, box count	✓ INCLUDED	—	Time window shown. If vendor not ready: shows waiting message.
Delivery stop: customer alias, zone, box number assigned	✓ INCLUDED	—	Never shows full address on list (privacy). Full address shown when navigating only.
Load manifest per pickup (which box goes where)	✓ INCLUDED	—	Tap any pickup stop → see box list: "Box 1 → C7 Ochota."
Admin sets route optimisation priority	⚙ ADMIN	ACM-77	Fastest / Most deliveries / Balanced. Admin switches per city.
Push: route updated (after reassignment)	✓ INCLUDED	—	FCM push when admin reassigns orders to this driver.

6. Pickup from Vendor — Collection PIN

DA-05 — Vendor Pickup with Collection PIN

DA-05

Vendor Pickup Screen

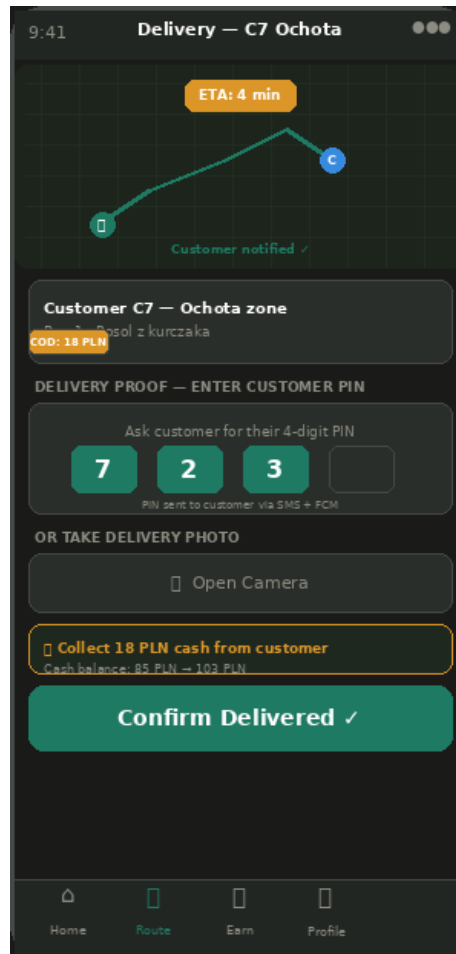

✓ INCLUDED

v1.0

CRITICAL: Collection PIN creates a verified chain of custody. Vendor shows PIN on their screen, driver enters it here. MISSING from original Appzeto scope — must be confirmed included.

Feature	Status	Admin Control	Notes / Logic
Map showing route to vendor (dark themed)	✓ INCLUDED	ACM-23	Dark Google Maps. ETA countdown.
Vendor info card: name, address, batch, box count	✓ INCLUDED	—	Shows which batch and how many boxes to collect.
Navigate + Call vendor buttons	✓ INCLUDED	—	Navigate: Google Maps. Call: masked number via Twilio Proxy.
Collection PIN entry field (4 digits)	✓ INCLUDED	—	MISSING — must add. Vendor shows PIN, driver enters here. 3 attempts then admin alerted.
Load manifest (which box → which customer)	✓ INCLUDED	—	Driver knows before leaving vendor.
Wrong PIN handling (3 attempts + admin alert)	✓ INCLUDED	—	MISSING. After 3 fails: admin alerted, vendor can regenerate PIN.
Vendor not ready: polling + wait screen	✓ INCLUDED	—	App polls vendor status every 60s. Shows estimated wait.

7. Customer Delivery — PIN + Photo Proof

DA-06 — Delivery Screen with Proof

DA-06	Customer Delivery Screen	✓ INCLUDED	v1.0 + v3.0
-------	--------------------------	------------	-------------

Feature	Status	Admin Control	Notes / Logic
Dark map with customer as destination pin	✓ INCLUDED	ACM-23	Driver navigating to customer. Route shown in green.
ETA badge (updates every 30s)	✓ INCLUDED	ACM-24	Google Distance Matrix API.
"Arriving Soon" auto-sent to customer (500m trigger)	✓ INCLUDED	ACM-24	System auto-sends push to customer. Driver sees "Customer notified ✓."
Customer info card (alias, zone, meal, COD amount)	✓ INCLUDED	—	Never shows full name or phone number (privacy).
Delivery PIN entry (if customer chose PIN)	✓ INCLUDED	—	MISSING. Driver asks customer for 4-digit PIN. Backend validates. GPS + timestamp logged.
Delivery photo capture (if customer chose photo)	✓ INCLUDED	—	MISSING. Driver taps camera, takes photo at door. Uploaded to Firebase/S3.
Masked calling via Twilio Proxy (v3.0)	✓ INCLUDED	—	NEW. Driver taps Call → Twilio Proxy connects via masked number. Neither party sees real number.
Admin can lock proof method platform-wide	⚙ ADMIN	ACM-25	PIN / Photo / Customer choice.
COD cash collection (amber indicator)	✓ INCLUDED	ACM-73	Amber "Collect: 18 PLN cash" shown. After confirmed: driver:cash_balance updated.
GPS mismatch fraud detection (v3.0)	✓ INCLUDED	—	NEW. If GPS at delivery > 500m from address: flagged for admin review.
Confirm Delivered CTA (only enabled after proof)	✓ INCLUDED	—	Large green button. Disabled until PIN entered or photo taken.

Delivery Confirmation — PIN or Photo + Fraud Check

```
// Method A — PIN:
POST /api/delivery/verify-pin
{ order_id, pin_entered: "7234", driver_id, delivery_gps: {lat, lng} }

Backend:
const stored = redis.get("delivery_pin:" + order_id)
if (pin_entered !== stored) return error("Incorrect PIN")

// FRAUD CHECK (v3.0):
const distance = haversineDistance(delivery_gps, order.delivery_address)
if (distance > 500) {
  flagForReview(driver_id, "GPS_MISMATCH", { distance, order_id })
  // Still confirm delivery (driver may be in alley) but flag for admin
}
confirmDelivery(order_id, driver_id, "pin", delivery_gps)

// Method B — Photo:
POST /api/delivery/verify-photo (multipart)
{ order_id, photo: imageFile, driver_id, delivery_gps: {lat, lng} }
photo_url = await uploadPhoto(imageFile) // Firebase Storage
confirmDelivery(order_id, driver_id, "photo", delivery_gps, photo_url)
```

```
// confirmDelivery - shared function:
async function confirmDelivery(order_id, driver_id, method, gps, photo=null) {
  // Update order:
  order.status = "delivered"; order.delivered_at = now()
  order.proof_method = method; order.proof_photo_url = photo
  order.delivery_gps = gps

  // COD cash (v3.0 - fleet partner owns tip VAT):
  if (order.payment_method === "cod") {
    driver.cash_balance += order.price_pln
    if (driver.cash_balance >= driver.cash_limit_pln) {
      FCM.send(driver, "Cash limit reached - contact admin")
      notifyAdmin("CASH_LIMIT", driver)
    }
  }

  // Tip VAT note (v3.0 correction):
  // Tip gross amount goes 100% to driver via fleet partner
  // Fleet partner declares 23% VAT on tips to tax authority
  // Driver sees tip gross amount in earnings (VAT already handled by fleet)

  FCM.send(customer, "Delivered! Enjoy your meal. Rate your experience -")
  driver.earnings_today += order.delivery_fee_pln
  driver.deliveries_today += 1
  checkBonusProgress(driver_id)
}
```

8. Failed Delivery Flow

9:41 Cannot Deliver

△ Mark as Failed Delivery

Home Route Earn Profile

DA-07 — Failed Delivery Screen

Feature	Status	Admin Control	Notes / Logic
Reason selection (5 options) — required	✓ INCLUDED	—	No one home / Wrong address / Customer refused / Unsafe access / Rescheduled.
Mandatory door/location photo	✓ INCLUDED	ACM-26	Must take photo before marking failed. GPS + timestamp stored with photo.
Additional note field (optional)	✓ INCLUDED	—	Free text. E.g. "Intercom broken, tried calling."
Box disposition: Holding / Left with neighbour / Returned to vendor	✓ INCLUDED	—	Driver selects what happened to the box. Logged.
Auto-notify admin (CS dashboard alert)	✓ INCLUDED	—	Admin sees failed delivery alert. Routes to AP-04 complaint inbox.
Customer push + SMS notification	✓ INCLUDED	—	FCM + SMS: "Delivery attempted. Contact support for reattempt or refund."
Driver gets partial earnings (50% of delivery fee)	✓ INCLUDED	—	Not penalised for genuine failures. Rating not affected for valid reasons.

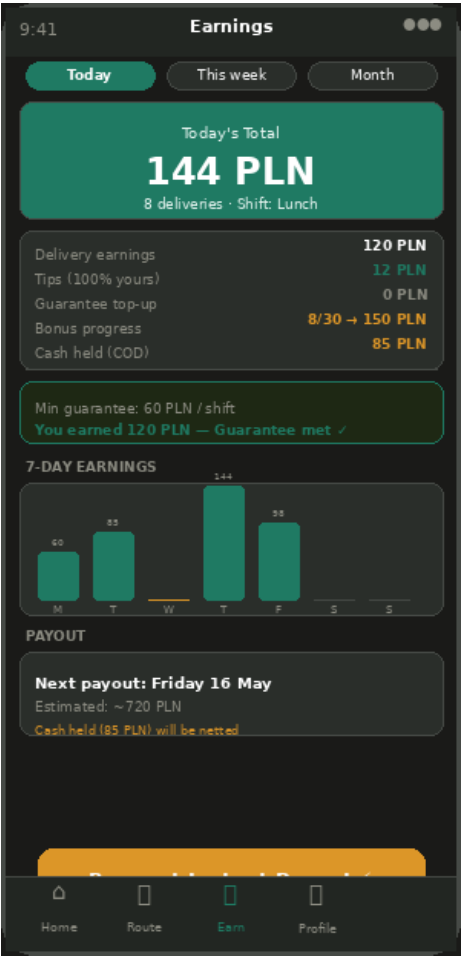

9. Peak Hours Demand Heatmap

DA-08 — Peak Demand Heatmap

Feature	Status	Admin Control	Notes / Logic
Live colour heat map (dark themed)	✓ INCLUDED	ACM-52	Red = high demand, amber = medium, green = low. Admin can disable per city.
Driver current position on map	✓ INCLUDED	—	Green dot "YOU". Updates every 5s when online.
Zone labels on heat map	✓ INCLUDED	—	Zone names on each area. Matches admin-defined zones.
AI insight: "Go to X for more orders"	✓ INCLUDED	—	System identifies hottest zone. One-line recommendation.
Navigate to hottest zone — one tap	✓ INCLUDED	—	Opens Google Maps navigation to centre of hottest zone.
Admin controls refresh rate	⚙ ADMIN	ACM-52	Every 1 min / 5 min (default) / 15 min. Admin sets per city.

10. Earnings Screen

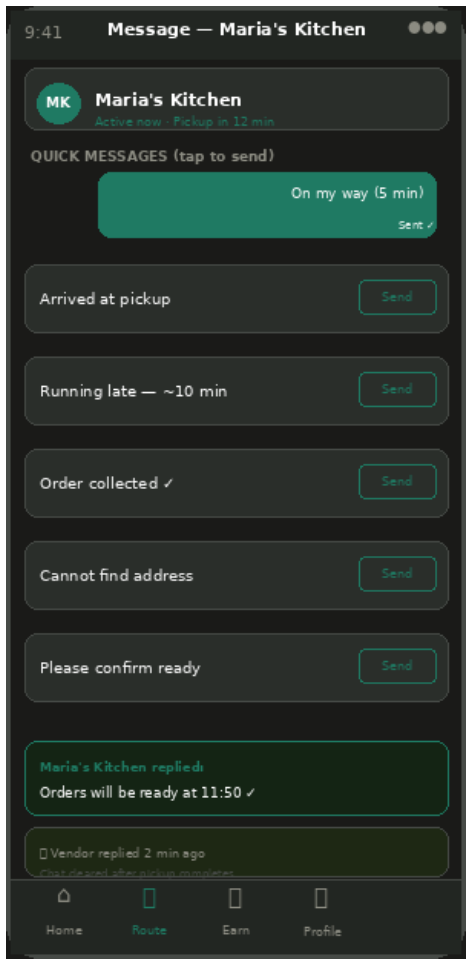

DA-09 — Earnings (Daily / Weekly / Monthly)

DA-09	Earnings Screen	✓ INCLUDED	v1.0 + v3.0
-------	-----------------	------------	-------------

v3.0 correction: Tips show gross amount to driver (100%). Fleet partner handles 23% VAT on tips. Driver sees what they actually receive — VAT is fleet partner's responsibility, not driver's.

Feature	Status	Admin Control	Notes / Logic
Period tabs: Today / This week / This month	✓ INCLUDED	—	All three always available.
Today total earnings (prominent)	✓ INCLUDED	—	Online earnings + tips combined.
Cash balance (COD held) — amber card	✓ INCLUDED	ACM-73	Shows total cash from COD. "Report to admin" shortcut.
Earnings breakdown per type	✓ INCLUDED	—	Delivery earnings / Tips (100% yours) / Guarantee top-up / Bonus / Cash held.
Tip VAT note (v3.0)	✓ INCLUDED	—	NEW. Shows: "Tips shown at gross. Fleet partner handles 23% VAT declaration."
7-day earnings bar chart	✓ INCLUDED	—	Green bars = earnings. Shows pattern and identifies slow days.
Minimum guarantee status	✓ INCLUDED	ACM-70	Shows: "Guarantee: 60 PLN. You earned 120 PLN. Met ✓"
Weekly bonus progress	✓ INCLUDED	ACM-71	Delivery count toward bonus target. Admin sets targets.
Next payout info + instant payout button	✓ INCLUDED	ACM-68/69	Next scheduled date + amount estimate.
Cash settlement reconciliation	✓ INCLUDED	ACM-73	When admin nets off cash: shows "85 PLN cash settled, 635 PLN bank transfer."
Push: payout processed	✓ INCLUDED	ACM-68	FCM + Email. Cannot disable. Shows bank amount + cash netted.
Push: cash limit approaching (80%)	✓ INCLUDED	ACM-73	FCM push. Can disable.
Push: bonus unlocked	✓ INCLUDED	ACM-71	FCM push when delivery target hit. Can disable.

11. Driver-to-Vendor Quick Messages

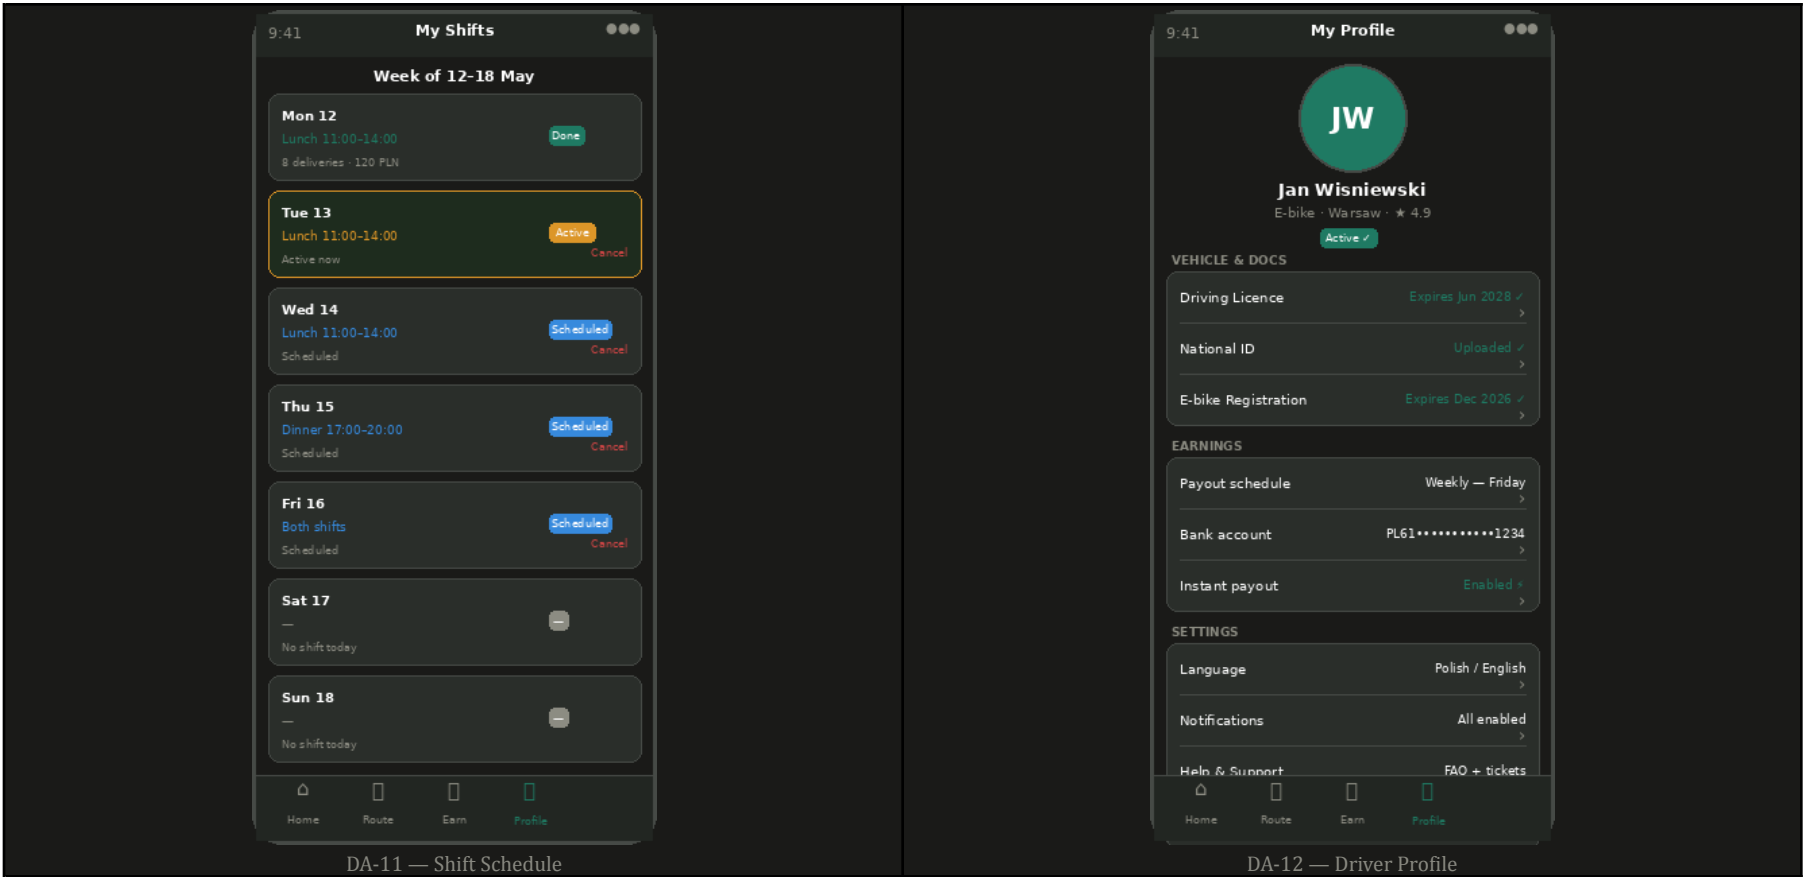

DA-10 — Quick Message Templates

DA-10	Driver-to-Vendor Quick Chat	✓ INCLUDED	v1.0
-------	-----------------------------	------------	------

Feature	Status	Admin Control	Notes / Logic
Pre-set quick message templates (tap to send)	✓ INCLUDED	ACM-53	6 default messages. Admin can edit text. Cannot add/remove without code change.
Chat only for current active pickup	✓ INCLUDED	—	Cleared after pickup completed. No persistent chat history stored.
Vendor replies visible in driver app	✓ INCLUDED	—	If vendor replies: driver sees reply as bubble.
Default templates	✓ INCLUDED	ACM-53	1. On my way (5 min) 2. Arrived at pickup 3. Running late ~10 min 4. Order collected ✓ 5. Cannot find address 6. Please confirm ready.
Admin can disable chat + edit templates	⚙ ADMIN	ACM-53	If disabled: Message Vendor button hidden from route screen.
Push: vendor replied (FCM toast)	✓ INCLUDED	ACM-53	Shows vendor reply as push notification. Can disable.

12. Shift Management & Driver Profile

DA-11	Shift Management Screen	✓ INCLUDED	v1.0
-------	-------------------------	------------	------

Feature	Status	Admin Control	Notes / Logic
This week shift schedule (Mon–Sun)	✓ INCLUDED	—	Each day: shift type, status (Done/Active/Scheduled), earnings.
Cancel scheduled shift (2h notice min)	✓ INCLUDED	—	Admin notified automatically.

Zone assignment display (admin-set)	✓ INCLUDED	ACM-64	Driver cannot change zones — must contact admin.
Payout schedule display + request change	✓ INCLUDED	ACM-68	Only shown if admin allows driver self-service.
Push: shift reminder (30 min before)	✓ INCLUDED	ACM-76	FCM push before each shift. Can disable.

DA-12	Driver Profile Screen	✓ INCLUDED	v1.0 + v3.0
-------	-----------------------	------------	-------------

Feature	Status	Admin Control	Notes / Logic
Personal info, vehicle, bank account	✓ INCLUDED	—	Editable. Bank IBAN change requires re-verification.
Document management: licence, ID, vehicle reg	✓ INCLUDED	ACM-67	Each document shows expiry. Colour: green/>60 days, amber/30-60, red/<30.
Fleet Partner assignment (v3.0)	✓ INCLUDED	—	NEW. Shows: "Fleet Partner: Evelstar Sp. z o.o." Cannot change — admin only.
Payout history + tax documents	✓ INCLUDED	—	All past payouts. CSV export. Tax documents.
Cash settlement records	✓ INCLUDED	ACM-73	Full history of cash collections and settlements.
Language setting	✓ INCLUDED	ACM-89	Polish + English at launch. Admin adds via OTA.
Help & Support (driver support tickets)	✓ INCLUDED	—	NEW. Driver can report issue on specific order. Routes to CS inbox with order context.
